We would like to know is it possible to open a gallery in this area or we do need to have a special permit. In this creative space we have idea to present a project of illusions, which will bring together an exposition of voluminous paintings from different modern world themes and of course the culture of Amsterdam. We plan to use a lot of drawings which are connected to the Dutch heritage, such as windmills, tulips, architecture and probably something more. ## MAZE OF HORROR

The «Maze of Horror» is a sophisticated system of corridors and turns where a visitor needs to find a way out. Frightening traps lie in wait for you at every step. The bone-chilling sounds, mysterious lights, dreadful darkness of the catacombs – this is the atmosphere of a real horror film. All your greatest fears will come to life in the sinister «Maze of Horror».

Are you ready to challenge your courage?

You are in a high-security cell, handcuffed to a pipe. There is only a single chance to escape — while the guard has turned away for a second. You are in for traps, secret rooms, walled-up prisoners and a chance to wind up in a punishment cell.

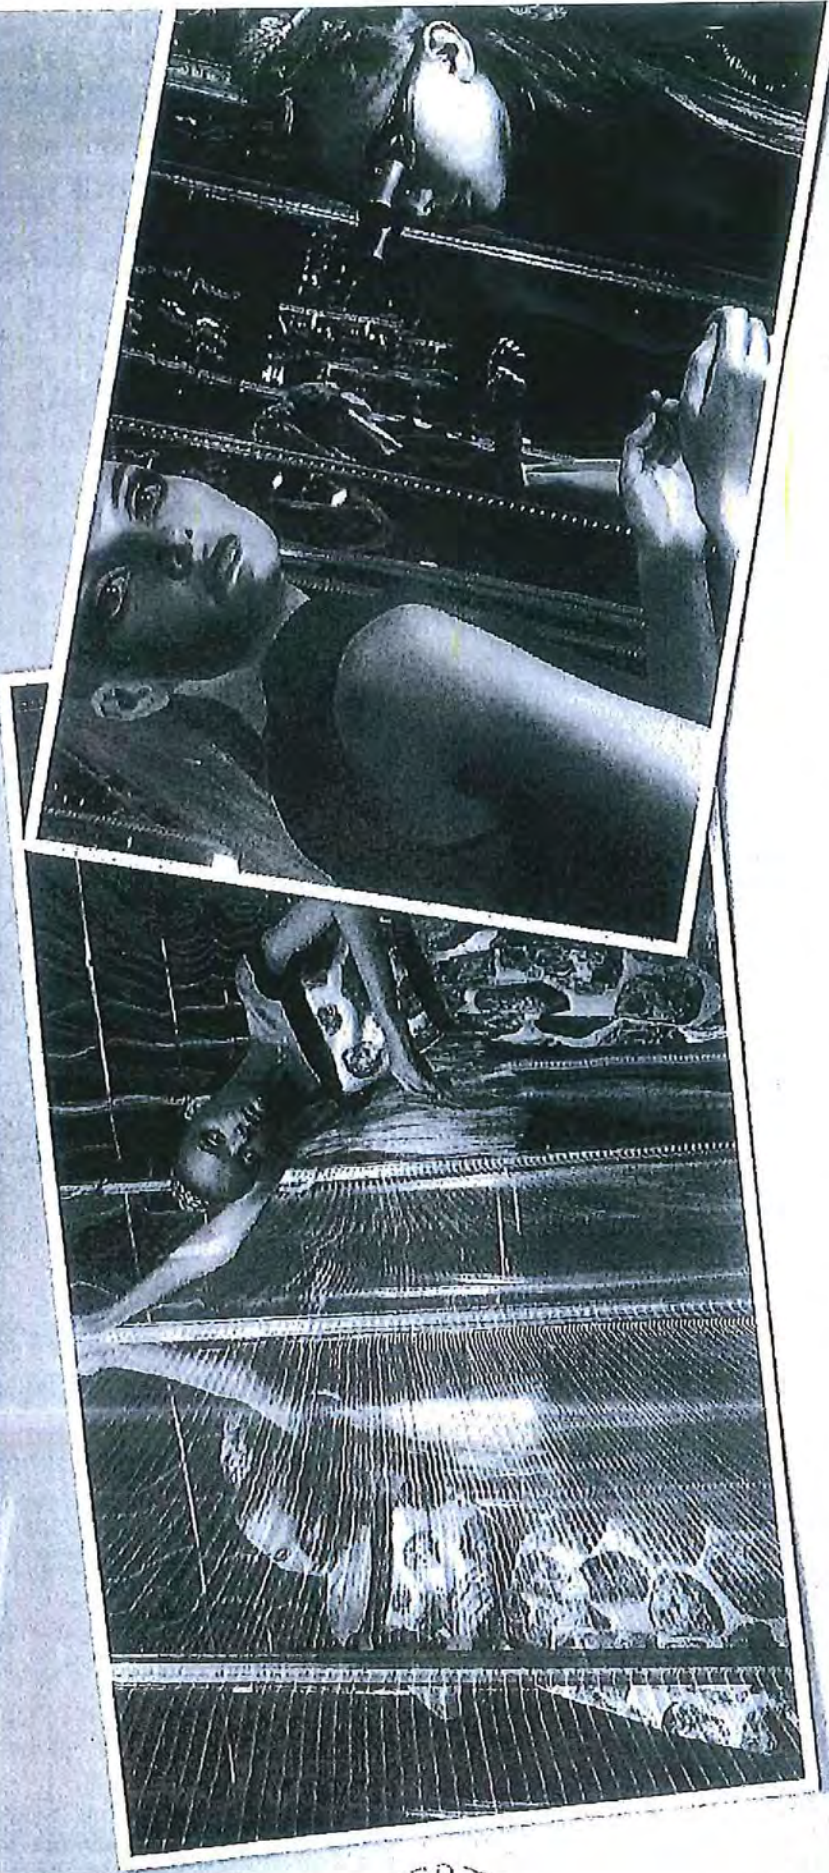

«Prison Escape» conveys the atmosphere of Shawshank, Guantanamo and "Crosses" in one space.

THE  
MIRROR  
MAZE

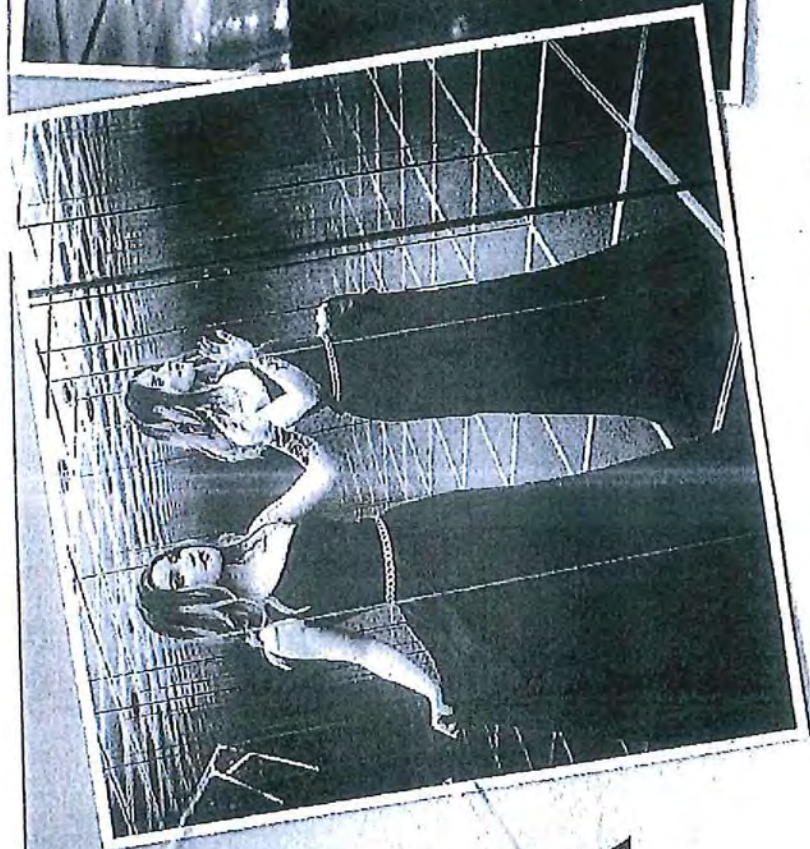

The "Mirror Maze" is a realm of light illusions, "infinite" spaces refuting the laws of physics. If you hear the interlocutor's voice nearby, it does not mean that you can physically touch them. Strange music. Charming lighting. One wrong step and the maze has already swallowed you.

Feel like Alice in Wonderland penetrating Through the Looking Glass!

RIBBON  
MAZE

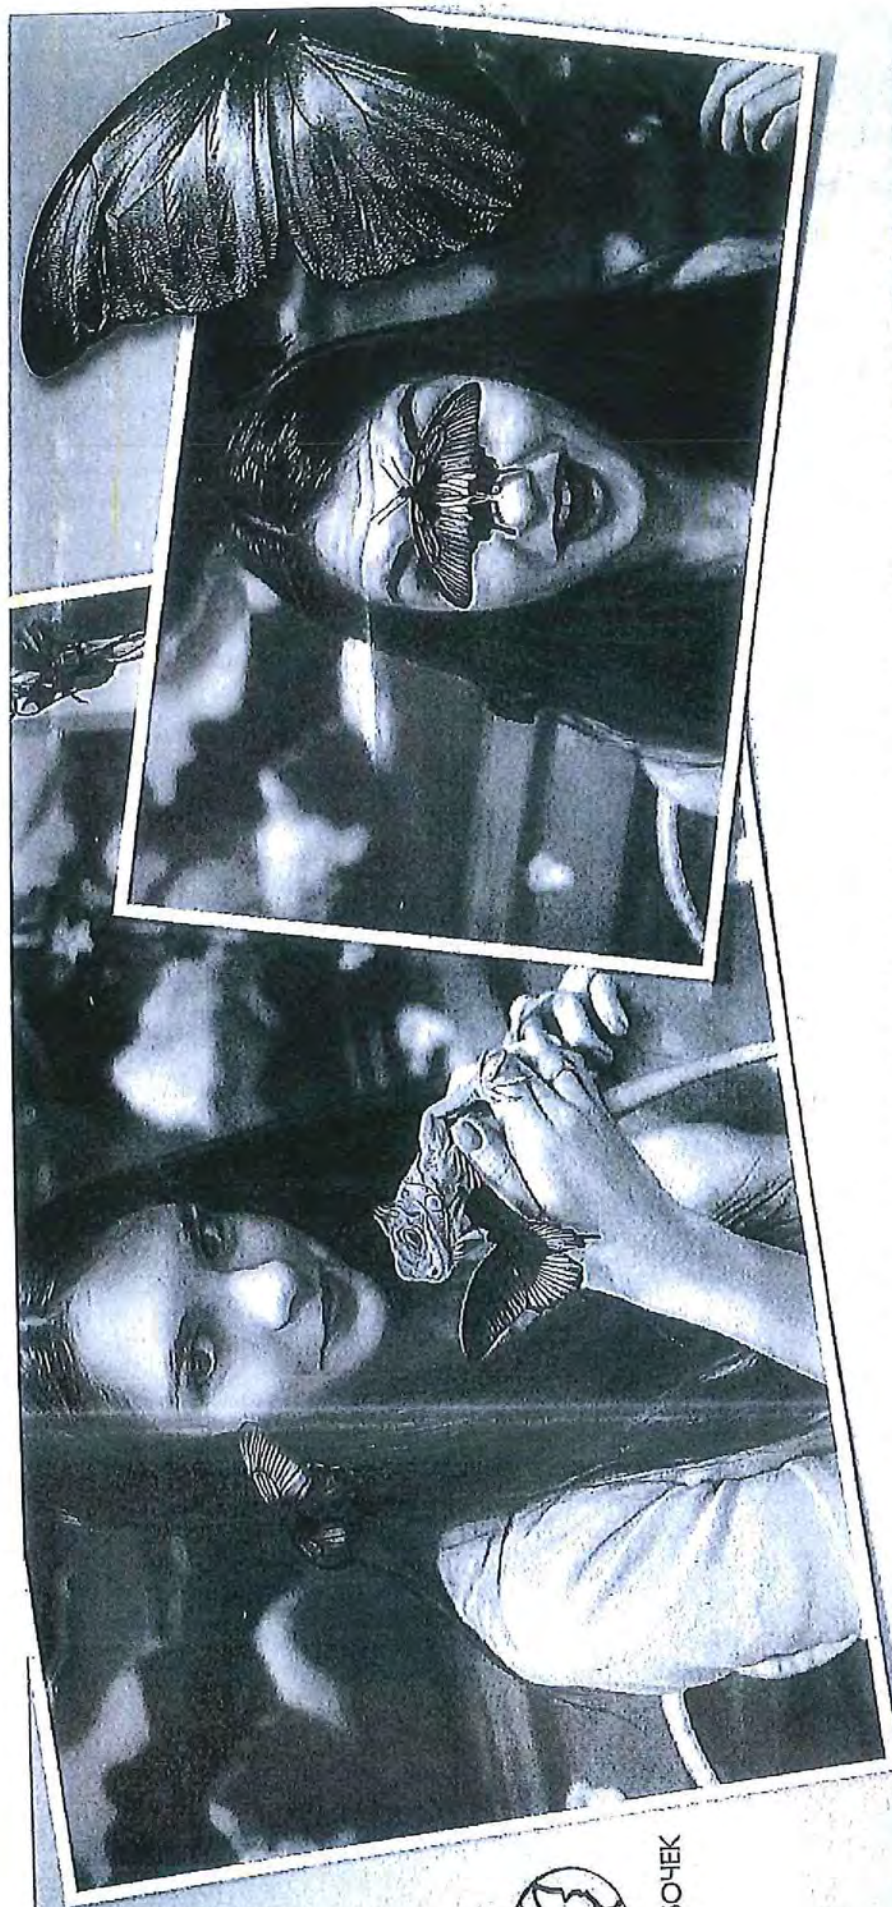

"Ribbon maze" is a giant kaleidoscope with bright patterns. It has no rooms or turns prompting how to get out. The ribbons create the effect of infinity and weightlessness. Minotaur himself would get lost in the «Ribbon maze»!
