Doorgezet naar Buiten reikwijdte / JR 15-10-2020

Dear Buiten reikwijdte

first I would like to apologise for the late reply. After consultation with the Regierungspräsidium Freiburg (the responsible regional German CITES-MA for his last residence), an on-site check at Buiten reikwijdte residence was planned for September this year. However, this did not happen since Buiten reikwijdte already moved to France in February 2020. After further contact between the Regierungspräsidium Freiburg and Buiten reikwijdte he finally disclosed his new address:

Buiten reikwijdte

We still try to backtrace the origin of the species you asked for as well as for other very rare poison frog species he possessed. We still do not expect to find a legal origin and therefore cannot confirm the specimen's legality. Nevertheless, at the moment, we also cannot negatively state that the specimens are illegal. As soon as we get more information, I will forward them to you.

Best regards from Germany

I hope you are well.

You wrote in your previous email that the origin of the *Ameerega macero* is under investigation. Is the investigation still going? It is clear that there are no legal import registrations of this species, but we would like to know more of it's origin.

We would be grateful if you can give us any information.

Kind regards,

Buiten reikwijdte

**Onderwerp:** RE: Antw: FW: reminder FW: Breeder information Ameerega macero (NL request 4890023316865)

Dear Buiten reikwijdte

a few weeks ago, we got into touch with the responsible regional authority again. So far, they were only able to confirm that the person obeyed national registration duties applying for protected species. The origin of the specimens is still not clear and currently under investigation. However, due to the particularities of this species I strongly doubt its legal origin.

Kind regards

Buiten reikwijdte

**Onderwerp:** Antw: FW: reminder FW: Breeder information Ameerega macero (NL request 4890023316865)

Dear Buiten reikwijdte

sorry for the delay in answering. Unfortunately, we are still waiting for an answer of one of the responsible regional German authorities. The person in question has moved his "shop" recently so there are more authorities involved in the research.

It might be that they are conducting closer investigations on the origin of these species which are taking time (due to 'Corona lock down' it is difficult to get hold of the responsible person in the authority) since this species has **never been traded legally**. See WCMC trade data:

[https://trade.cites.org/en/cites\\_trade/download/view\\_results?filters%5Btime\\_range\\_start%5D=1975&filters%5Btime\\_range\\_end%5D=2019&filters%5Bexporters\\_ids%5D%5B%5D=all\\_exp&filters%5Bimporters\\_ids%5D%5B%5D=all\\_imp&filters%5Bsources\\_ids%5D%5B%5D=all\\_sou&filters%5Bpurposes\\_ids%5D%5B%5D=all\\_pur&filters%5Bterms\\_ids%5D%5B%5D=all\\_ter&filters%5Btaxon\\_concepts\\_ids%5D%5B%5D=5968&filters%5Breset%5D=&filters%5Bselection\\_taxon%5D=taxonomic\\_cascade&web\\_disabled=&filters\[report\\_type\]=comptab](https://trade.cites.org/en/cites_trade/download/view_results?filters%5Btime_range_start%5D=1975&filters%5Btime_range_end%5D=2019&filters%5Bexporters_ids%5D%5B%5D=all_exp&filters%5Bimporters_ids%5D%5B%5D=all_imp&filters%5Bsources_ids%5D%5B%5D=all_sou&filters%5Bpurposes_ids%5D%5B%5D=all_pur&filters%5Bterms_ids%5D%5B%5D=all_ter&filters%5Btaxon_concepts_ids%5D%5B%5D=5968&filters%5Breset%5D=&filters%5Bselection_taxon%5D=taxonomic_cascade&web_disabled=&filters[report_type]=comptab)

Therefore, it seems hardly possible that the specimens in question can be considered legal and at the moment, we therefore cannot confirm its legality. However, for a final answer on their origin I am afraid you need to wait a few more weeks.

Best regards

(1) Alleen gebruiken of vermelden met een andere vermelding.  
(2) Het is niet nodig in combinatie met andere vermelding.

# Instructions and explanations

1. Full name and address of the actual (no agent), not of an agent. In the case of a personal ownership certificate, the full name and address of the legal owner.
2. After the last day of validity, this document is void and the original and all copies must be returned by the holder to the issuing management authority without undue delay.
3. Full name and address of the actual importer, not of an agent.
4. To be left blank in the case of a personal ownership certificate.
5. For live specimens of Annex A species other than captive bred or artificially propagated specimens, the issuing authority may prescribe the location in which they are to be kept by including details thereof in this box. Any movement, except for urgent veterinary treatment and provided the specimens are returned directly to their authorized location, then requires prior authorization from the competent management authority.
6. Description must be as precise as possible and include a three-letter code in accordance with Annex VII to Regulation (EC) No 853/2004 (laying down detailed rules concerning the implementation of Council Regulation (EC) No 343/97 on the protection of species of wild fauna and flora by regulating trade therein).
7. Use the units of quantity and/or lot size in accordance with those contained in Annex VII to Regulation (EC) No 853/2004.
8. Enter the number of the CITES Appendix (I, II or III) in which the species is listed at the date of issue of the permit/certificate.
9. Enter the letter of the Annex to Regulation (EC) No 338/97 (A, B or C) in which the species is listed at the date of issue of the permit/certificate.
10. List one of the following codes to indicate the source:  
A. Specimens taken from the wild  
B. Specimens originating from a ranching operation  
C. Annex A animals bred in captivity for commercial purposes and Annex A plants artificially propagated for commercial purposes in accordance with Chapter XII of Regulation (EC) No 853/2004, as well as parts and derivatives thereof  
D. Annex A plants artificially propagated for non-commercial purposes and Annexes B and C plants artificially propagated in accordance with Chapter XII of Regulation (EC) No 853/2004, as well as parts and derivatives thereof  
E. Annex B and C animals bred in captivity in accordance with Chapter XII of Regulation (EC) No 853/2004, as well as parts and derivatives thereof  
F. Animals born in captivity, but for which the criteria of Chapter XII of Regulation (EC) No 853/2004 are not met, as well as parts and derivatives thereof  
G. Confiscated or seized specimens (1)  
H. Pre-Convention (1)  
I. Source unknown (must be justified)  
J. One of the following codes to indicate the purpose for which the specimens are to be (re-)exported/imported:  
A. Breeding in captivity or artificial propagation  
B. Educational  
C. Botanical gardens  
D. Hunting trophies  
E. Law enforcement/pollution research  
F. Medical (including bio-medical research)  
G. Reintroduction or introduction into the wild  
H. Personal  
I. Circuses and travelling exhibitions  
J. Scientific  
K. Commercial  
L. Zoo  
M. The country of origin is the country where the specimens were taken from the wild, born and bred in captivity or artificially propagated. Where this is a third country, boxes 16 and 17 must contain details of the relevant permit. Where specimens of Annex A species originating in a Member State of the Community are exported from another, the number and date of the EC-certificate must be mentioned. For specimens of other species only the name of the Member State of origin should be mentioned.  
N. The country of last re-export is, in the case of a re-export certificate, the re-exporting third country from which the specimens were imported before being re-exported from the Community. In the case of an import permit, it is the re-exporting third country from which the specimens are to be imported. Boxes 18 and 20 must contain details of the relevant re-export certificate.  
O. The scientific name must be in accordance with the standard references for nomenclature referred to in Annex VIII to Regulation (EC) No 853/2004.  
P. For official use only.  
Q. The importer/exporter or his agent must, where appropriate, indicate the number of the bill of lading or air waybill.  
R. To be completed by the customs office of introduction into the Community or that of (re-)export as appropriate. In the case of introduction, the original (item 1) must be returned to the management authority of the Member State concerned and the copy for the holder (item 2) to the importer in the case of (re-)export, the copy for return by customs to the issuing authority (item 3) must be returned to the management authority of the Member State concerned and the original (item 1) and the copy for the holder (item 2) to the (re-)exporter.
11. The country of origin is the country where the specimens were taken from the wild, born and bred in captivity or artificially propagated. Where this is a third country, boxes 16 and 17 must contain details of the relevant permit. Where specimens of Annex A species originating in a Member State of the Community are exported from another, the number and date of the EC-certificate must be mentioned. For specimens of other species only the name of the Member State of origin should be mentioned.
12. The country of last re-export is, in the case of a re-export certificate, the re-exporting third country from which the specimens were imported before being re-exported from the Community. In the case of an import permit, it is the re-exporting third country from which the specimens are to be imported. Boxes 18 and 20 must contain details of the relevant re-export certificate.
13. The scientific name must be in accordance with the standard references for nomenclature referred to in Annex VIII to Regulation (EC) No 853/2004.
14. For official use only.
15. The importer/exporter or his agent must, where appropriate, indicate the number of the bill of lading or air waybill.
16. To be completed by the customs office of introduction into the Community or that of (re-)export as appropriate. In the case of introduction, the original (item 1) must be returned to the management authority of the Member State concerned and the copy for the holder (item 2) to the importer in the case of (re-)export, the copy for return by customs to the issuing authority (item 3) must be returned to the management authority of the Member State concerned and the original (item 1) and the copy for the holder (item 2) to the (re-)exporter.
17. The country of origin is the country where the specimens were taken from the wild, born and bred in captivity or artificially propagated. Where this is a third country, boxes 16 and 17 must contain details of the relevant permit. Where specimens of Annex A species originating in a Member State of the Community are exported from another, the number and date of the EC-certificate must be mentioned. For specimens of other species only the name of the Member State of origin should be mentioned.
18. The country of last re-export is, in the case of a re-export certificate, the re-exporting third country from which the specimens were imported before being re-exported from the Community. In the case of an import permit, it is the re-exporting third country from which the specimens are to be imported. Boxes 18 and 20 must contain details of the relevant re-export certificate.
19. The scientific name must be in accordance with the standard references for nomenclature referred to in Annex VIII to Regulation (EC) No 853/2004.
20. For official use only.
21. The importer/exporter or his agent must, where appropriate, indicate the number of the bill of lading or air waybill.
22. To be completed by the customs office of introduction into the Community or that of (re-)export as appropriate. In the case of introduction, the original (item 1) must be returned to the management authority of the Member State concerned and the copy for the holder (item 2) to the importer in the case of (re-)export, the copy for return by customs to the issuing authority (item 3) must be returned to the management authority of the Member State concerned and the original (item 1) and the copy for the holder (item 2) to the (re-)exporter.
23. The country of origin is the country where the specimens were taken from the wild, born and bred in captivity or artificially propagated. Where this is a third country, boxes 16 and 17 must contain details of the relevant permit. Where specimens of Annex A species originating in a Member State of the Community are exported from another, the number and date of the EC-certificate must be mentioned. For specimens of other species only the name of the Member State of origin should be mentioned.

[illegible]

18 jan 17 Het land van kerkrecht is het land waar de opzieners van de kerk  
worden getroffen, in gevangenschap worden geboren en geknipt of kerkrechtelijk  
worden gemaakt. Als dit het derde land is, moeten in de vakken 16 en 17 de  
gegevens betreffende de betrokken verpandingen worden vermeld. Wanneer opzic-  
kers afkomstig zijn uit een lidstaat van de Gemeenschap, dient voor Bijlage A  
soorten het nummer en datum van het EG-certificaat worden vermeld.  
Voor andere soorten heeft u vak 15 alleen de naam van de lidstaat van kerkrecht te  
vermelden.

14 Jun 20: Het land van laatste wederkomst is, in het geval van een wederkomst ingetrokken, het wederkomstende land dat van waart de spreker worden ingetrokken alvorens zij uit de Gemeenschap worden wederomgevoerd. In het geval van een wederomgeving is het het wederkomstende derde land van waart de spreker worden ingetrokken. In de vollen 19 en 20 minuten van de spreker betreffende het betreffende wederkomstencertificaat worden van

21. De werkdag(en) die naar dient te overeenstemmen te zijn met de in bijlage VIII bij Verordening (EG) nr. 609/2006 genoemde standaardnormen te nemen.

23 van 25 Door de bevestigde antenne kan je welven vullen.

26. De voorwerf (verder)inroeder of zijn agent dient hier in voorkomend geval het nummer van de (toestel)verordening te vermelden.

27. Wordt ingevuld door het desamptenare waar de specimina van de Gemeenschappelijke woordenboekgebruikers die wel en die Gemeenschappelijke woorden (worden) ingevuld.
