**Onderwerp:** Invitation Cyber Security Roundtable

Dear Patricia,

Recently there has been an increased debate on the dependency of the Netherlands on Chinese network equipment. To put things into perspective and to provide more context we are planning to organize a roundtable discussion on cyber security and 5G. Our planned date is January 9, 2019, and the venue would be most likely at kasteel de Wittenburg in Wassenaar.

We would be very happy if you and/or your colleagues could join this workshop, the NCTV and NCSC are very important stakeholders in this discussion. In fact, we would like to align with you already on the topics for this roundtable and the stakeholders we want to invite. We envision that this event will bring together leading representatives from governments, business and academia, as well as opinion leaders, to discuss the next steps for a secure digital future.

We would welcome your input with this respect. Therefore my question is whether you or one of your colleagues has time this week to go through the agenda and invitation list. This would help us to make this a successful roundtable discussion.

Next to cyber security we would like to address the geopolitical situation, which cannot be seen separate from the technical part.

Draft Agenda:

Date	January 9, 2019
Time	09:00 – 09:30 Registration and coffee 09:30 – 12:30 Main program 12:30 – 13:30 Lunch
Agenda Topics	1. Introduction of Huawei and Huawei's strategy on Cybersecurity 2. The facts behind Huawei in the news 3. The impact of 5G on the Dutch Society 4. China's Cyber Security Law and regulations and its impact to Huawei 5. 5G security facts, concerns & mitigations 6. The benefits of industry based assurance and successful approaches.

Me and my team are available to provide you with more details and to answer your

questions.

I'm looking forward to your reply.

Best regards,

Steven Cai

## Invitation Huawei Cyber Security Roundtable

Dear [REDACTED],

Recently there has been a lot of debate in the Netherlands on the topics cyber security and the dependency of the Netherlands on Chinese equipment with regard to telecom networks. All in the context of the tense geopolitical situation.

To put things in perspective and to provide you with the opportunity to share your thoughts and ideas with other key stakeholders, I would like to invite you for Huawei's Cyber Security Roundtable. This will be held on the 9<sup>th</sup> of January 2019, at Kasteel Wittenburg in Wassenaar.

This roundtable event will bring together leading representatives from ministries who are involved in the issue, telecom providers and opinion leaders, to discuss the next steps for a secure digital future. We will do this under Chatham House rules, so you can freely share all of your thoughts. This will give us the opportunity to have an open dialogue in a closed circle of trust.

The topics addressed are; Huawei's approach to and strategy on cyber security, 5G security, Chinese laws and regulations related to cyber security and how assurance is arranged within our company.

I look forward to address the topics which are of current concern to and to reaffirm Huawei's commitment to infrastructure security in the Netherlands.

### *Where & when:*

Location	Kasteel Wittenburg Landgoed de Wittenburg 1 Wassenaar
Date	January 9, 2019
Time	09:00 – 09:30 Registration and coffee 09:30 – 12:30 Main program 12:30 – 13:30 Lunch
Agenda Topics	<ol style="list-style-type: none"><li>1. Introduction of Huawei and Huawei's strategy on Cybersecurity</li><li>2. The facts behind Huawei in the news</li><li>3. Beste [REDACTED]

Via deze weg nodig ik je graag uit voor een ronde tafel sessie op 9 januari a.s. in kasteel Wittenburg in Wassenaar. De afgelopen weken is er in de media veel aandacht geweest voor de zorgen over nationale veiligheid, over de opkomst van China en over onze organisatie. Graag zouden wij in het bijzijn van diverse relevante stakeholders hier verder over praten.

In de bijlage vind je de officiële uitnodiging. Ik hoor graag van je of je erbij kunt zijn.

Met vriendelijke groet,

**Onderwerp:** Terugkoppeling gesprek met Huawei  
 Gesprek met vertegenwoordigers van Huawei, 18-12-2018  
 NCTV Patricia Zorko, DCS [REDACTED]  
 Steve Cai, [REDACTED] (Huawei), [REDACTED] ([REDACTED])  
 Gesprek op verzoek van Huawei, dhr Cai is president van H Nederland, dhr [REDACTED] was chef van het test centrum in UK en wordt chef van nieuw op te richten centrum in Brussel. Hr.

Van de zijde van H werden sheets toegelicht,

[REDACTED]  
 [REDACTED]  
 De komende 5-10 jaar zal er 2 mrd dollar in cybersecurity worden geïnvesteerd.

[REDACTED]  
 [REDACTED]  
 [REDACTED]. Meerdere advocatenkantoren hebben ook aangetoond dat er juridisch geen enkele mogelijkheid is voor de Chinese overheid om informatie te eisen van het bedrijf.

[REDACTED]  
 [REDACTED]  
 Verder nog gevraagd naar hun zienswijze op de Tjechische waarschuwing. Die kende ze, maar wilde ze verder niets over kwijt.

Tenslotte nog een uitnodiging in ontvangst genomen voor een ronde tafel in Wassenaar in januari en een uitnodiging voor de opening van het centrum in Brussel in het voorjaar.

[REDACTED]  
 [REDACTED]  
 Daar zijn we verder niet op ingegaan.

[REDACTED]  
 Afgesproken dat

Patricia in de tweede week van januari nog telefonisch contact heeft. Hiervoor moet een lijntje worden voorbereid.

# HUAWEI EUROPEAN CYBERSECURITY CENTER

5 March 2019

## You are invited to the opening of the Huawei European Cybersecurity Center

On 5 March 2019, Huawei's new European Cybersecurity Center in Brussels will open its doors, delivering on our commitment to consolidate openness, transparency, trust and collaboration in the digital world.

**I am delighted to invite you to attend the Opening Ceremony to celebrate this milestone together.**

The event will bring together leading representatives from governments, business and academia, as well as EU policy-makers, to visit Huawei's new facility in Brussels and discuss the next steps for a secure digital future.

I will be personally present to share our strategy and approach towards cyber security with you, and to reaffirm Huawei's commitment to Europe's Digital Infrastructure Security.

*Where:* **Huawei European Cybersecurity Center, Rue Guimard 9, B-1000 Brussels**

*When:* **10:30 – 12:00, Tuesday, 5th March 2019**

### About the Center

Huawei's European Cybersecurity Center will be a place for exhibition and demonstration on Huawei cybersecurity strategy, practice and security solutions for 5G, IoT, Cloud, and NFV, etc., where our experts will be able to explain the technical aspects behind our products and solutions in a way that is understandable for both policy makers and customers.

It will also be a hub for Huawei to cooperate with the European ICT ecosystem by allowing information exchange on key issues such as standardisation, certification, and best practice on cybersecurity.

The Center also provides a platform for our customers to verify the technologies offered by Huawei.

The draft agenda of the event is attached.

  
Ken Hu  
Rotating Chairman, Huawei

 Onderwerp: FW: Meeting request Huawei Brussel

Ter info inzake een meeting request van Huawei Brussel aan de PV EU (en de PV NAVO). [REDACTED]

[REDACTED]. Voor contacten met lobbyisten en bedrijven vanuit PVEU gelden bepaalde regels, waarbij ook woordvoering betrokken moet worden. Roy is onze woordvoerder. **Optie** is nu om dit in Brussel af te handelen door EZK al dan niet samen met woordvoering (zie onderstaande mail), op een vergelijkbare wijze waarop ieder ander bedrijf ook zou worden ontvangen. Andere **optie** zou zijn dat dit in Den Haag wordt opgepakt, dat wil zeggen dat het verzoek aan PV wordt doorgeleid aan DH en vanuit DH een gesprek wordt gevoerd met Huawei. Ik laat even aan jullie over wat verstandig is. Moet dit naar jullie inschatting ook nog met BZ/DVB worden gedeeld?

Thanks, [REDACTED]

Dear [redacted],

My colleague [redacted] and I would be very grateful for the earliest opportunity to discuss with you 5G cybersecurity policy during the weeks of 23 April and 2 May.

The European Commission has recently launched its Recommendation on Cybersecurity of 5G Networks. In the meantime, we are aware that several EU Member States are already developing a position in this policy area. Huawei operates following principles of transparency, openness, and cooperation and so we would be very grateful to share our perspective with you and better understand your view at a national level.

Would you indicate your availability for the earliest date it would be convenient for us to meet and discuss this topic during the weeks of 23 April and 2 May, please?

Best regards,

**Onderwerp:** FW: Urgent call between Mr. Steven Cai and Mrs. Patricia Zorko

Dear Mrs. [REDACTED],  
 Good morning. Yesterday I was in contact with [REDACTED] for arranging a quick phone call between Mr. Steven Cai (CEO of Huawei Netherlands) and Mrs. Zorko. Unfortunately the call was not possible yesterday and we will be informed shortly again regarding this. Mr. Cai would like to check the possibility for a 5 minutes call with Mrs. Zorko today. I have sent an email to [REDACTED], however I noticed that she is not at office until next Tuesday.  
 I'm not sure if it is appropriate that I contact you. We will really appreciate if Mrs. Zorko could have 5 minutes time slot today for such a call.  
 Thank you very much!

**Onderwerp:** Urgent call between Mr. Steven Cai and Mrs. Patricia Zorko

Dear [redacted]

As per conversation just before, here by the email.

Mr. Cai would like to set up a quick conference call today with Mrs. Zorko, the purpose of the call is to have update about the news published by Volkskrant today and Huawei would like to be informed about whether there is potential investigation like what was written on the news. Mr. Cai will really appreciate if such quick call could be facilitated today.

Thanks very much!

Best regards,

Ministry of Justice and Security

## Huawei Technologies (Netherlands) B.V.

---

Voorburg, May 23<sup>rd</sup> 2019

To the Minister of Justice & Security  
Ministry of Justice & Security  
Mr. F.B.J. Grapperhaus  
PO Box 20401  
2500 EH, The Hague

Cc. Mrs. M.G.C. Keijzer

Excellency, Dear Mr. Grapperhaus,

The Bureau of Industry and Security (BIS) of the US Department of Commerce announced recently its decision to place Huawei on its so-called "Entity List". This decision is the latest move in the campaign against Huawei, waged by the US government for political reasons and to support the negotiations in the trade war. Huawei is against this decision.

The US government has launched the campaign against Huawei since long. Up till today, there is no single evidence provided to support their allegation. Under this circumstance, the action is clearly a violation of both legal and diplomatic practice globally.

To guarantee our products and services delivery to our customer, Huawei has invested heavily in the past 10 years to ensure that our business operations will not be affected, even under extreme conditions, such as natural disasters or disruption of supply as a result of political reasons. Huawei Technologies Netherlands BV have made explicit agreements and measures with our Dutch customers to secure product and service continuity.

Prior to the recent announcement of the US government, the US allegations have been focusing on cyber security. Given the considerable pressure from the US government to the European and Dutch policy makers, and the various unsubstantiated allegations, we experience an increasing difficult market and political situation in the Netherlands. The environment is currently strongly influenced by emotions rather than facts.

The Dutch Taskforce regarding 5G cyber security risks is in progress and is evaluating the vulnerabilities and potential mitigations towards critical infrastructure. As one of the technology suppliers, we are also evaluated in this investigation. Huawei is for many years an innovative, open and contributing company in the Netherlands.

Therefore we hope that the Dutch government will be fair, fact based, and a non-discriminatory towards the Huawei evaluation. The results of the taskforce are expected soon now, and Huawei would appreciate a timely notification of the content of such report as well as the opportunity to appeal if needed.

## Huawei Technologies (Netherlands) B.V.

---

In June our global chairman Mr. Guo Ping would like to visit the Netherlands and have an engagement with you. We would appreciate the opportunity very much to elaborate on the position of Huawei and the contribution to the Netherlands.

Huawei will continue to focus on the long-term development with the Netherlands and contribute to the digital transformation in order to support the competitiveness of the Dutch society. I am looking forward to meeting you again.

Yours Sincerely,

Steven Cai  
Huawei Technologies Benelux  
CEO

**Aan:** speakers@one-conference.nl  
**CC:** [redacted]  
**Onderwerp:** Voorstellen "call for presentations" One Conference

Geachte heer, mevrouw,

Hierbij een drietal voorstellen voor contributie aan de One Conference vanuit Huawei. Ik hoor tzt graag van u.

**Proposal 1:**

**Related to AI Security and Privacy Protection**

**1. Title : AI security and privacy protection governance solution**

**2. Abstract:**

Clarify Huawei's opinion and practice of AI security and privacy based on the strategy of "building a full-stack, all-scenario AI solution", define responsibility boundaries, introduce solution and practices.

- Huawei AI security and privacy protection governance principles and architecture
- Establish hierarchical AI governance and define security and privacy requirements at different layers based on the classification of personal data processing risks and activity characteristics and risks in AI scenarios

**3. Type of presentation:** Lecture

**4. Aim of the presentation:** Both Public and Private sector. Implementation vs Regulation

**5. Target audience :** CEO, CIO and policy makers

**6. Short bio of the speaker:**

John Suffolk is the President and Global Cyber Security & Privacy Officer (GSPO) for Huawei. In this role, he oversees the enhancement and implementation of Huawei's end-to-end global cyber security and privacy assurance system, which includes developing the overall strategies, executing the strategies and monitoring all aspects of security and privacy across the company to ensure they achieve legal and customer requirements. Mr. Suffolk is responsible for strengthening the company's understanding of security and privacy issues of governments and customers and ensuring the trusted delivery of all of the company's technology and services. Mr. Suffolk has more than 30 years of experience in the information and communications technology industry. Prior to joining Huawei in 2011, Mr. Suffolk spent more than seven years in the UK Government, where he was Her Majesty's Government CIO and CISO, leading the delivery of the Government's strategy for the transformation of public services enabled by technology. Previously, he was Operations Director and Managing Director of Britannia Building Society, and Director of Customer Services at Birmingham Midshires. He was named the most influential CIO in the UK in 2010 by Silicon.com and was ranked in the top five of the most influential people in technology behind Sir Tim Berners-Lee.

Mr. Suffolk received an MBA from The University of Wolverhampton in the United Kingdom

## Proposal 2:

### Related to 5G Security

**1. Title: 5G Security and true accountabilities.**

**2. Abstract:** 5G security is under heavy discussion, but it cannot solve the accountabilities which regulations are putting for new services. So question is, what else is needed beside 5G security and to whom?

**3.** Type of presentation (e.g. lecture, panel, demo and interactive aspects such as Q&A's or real time polling):  
**lecture**

**4.** Aim of the presentation. What's in it for the audience (public and private sector)? **Both Public and Private sector. Implementation vs Regulation**

**5.** Target audience (e.g. technical specialists, analysts, policy makers) **CEO, CIO and policy makers**

**6.** Short bio of the speaker:

Mika Lauhde works as Vice-President, Cyber Security & Privacy, Global PACD in Huawei Technologies Co., LTD. He leads public relations team to understand and provide insight of governments Cyber security and Privacy policy, public opinions, threads, technologies, laws, regulations, inside informations, situation and trends. His work in Huawei is to understand the "big picture" what comes to Cyber Security and its requirements globally. Prior joining Huawei he worked in SSH Communications Security as VP, Government Relations and Business Development. Engaging governments, industry partners, and customers on important security and privacy issues such as critical infrastructure protection, compliancy, software assurance, risk and identity management. In Nokia Corporation, Mika Lauhde headed Business Security and Continuity, where he was accountable globally Government Relations in Cybersecurity and Privacy area, Criminal compliancy and forensic, Nokia wide crisis management as well terminal and manufacturing related security tool manufacturing.

Mika has an extensive experience with cyber security related topics and governmental institutions both in Europe ASIA and USA. Currently he is a Member of ENISA (European Network and Information Security Agency) Permanent Stakeholder Group and Europol Cyber security and privacy adviser as well Senior Fellow, Maastricht University, Faculty of Law, Centre of Data protection and Cyber Security (2017-)

Member of ENISA (European Network and Information Security Agency) PSG (2009 – )

EUROPOL Cyber Security Advisor (2016 - )

EUROPOL Privacy Expert (2015 - )

**Proposal 3:**

**Related to Cyber stability and impact of the current trade war for global cybersecurity competence**

1. **Title: Trade war and impact to global cyber security and stability.**
2. **Abstract :** US-China trade conflict is impacting larger are of than Huawei . How current trade conflict is impacting to European citizens, companies and safety and security and what we need to learn from this
3. Type of presentation (e.g. lecture, panel, demo and interactive aspects such as Q&A's or real time polling): **lecture**
4. Aim of the presentation. What's in it for the audience (public and private sector)? **Both Public and Private sector. Implementation vs Regulation**
5. Target audience (e.g. technical specialists, analysts, policy makers) **CEO, CIO and policy makers**
