Positief advies over uitvoer (nr. 4890020314123) van 20 levende exemplaren van de soort *Uromastix ocellata* (oorsprong C), afkomstig van BRW, doel T.

Geachte heer BRW,

In antwoord op uw adviesvraag CITES nr. 4890020314123 van 30 oktober 2017, bericht ik u dat de Wetenschappelijke Autoriteit CITES Nederland (WA), na onderzoek van de beschikbare gegevens, positief adviseert over deze aanvraag, in overeenstemming met artikel 5.4 (5.2.a) van Europese Verordening 338/97 en artikel 54 van de Europese Verordening 865/2006.

De WA acht de kweekstatus aannemelijk en oordeelt dat de uitvoer van 20 levende exemplaren van de soort *Uromastix ocellata*, afkomstig uit Nederland (Appendix II/Bijlage B, oorsprong C) van BRW niet nadelig voor de instandhouding van de in het wild levende populatie van deze soort.

In geval u of derden dit advies onvoldoende inzichtelijk achten, is de WA gaarne bereid toelichting te geven, dan wel specifieke vragen schriftelijk te beantwoorden.

Met vriendelijke groet,

BRW

Den Haag, 22 juni 2020

Negatief advies over de invoer (nr. 4890023634976) van 300 levende exemplaren van de soort *Uromastix ocellata* (oorsprong W), afkomstig uit Soedan (doel T).

Geachte mevrouw **BRW**,

In antwoord op uw adviesvraag CITES-4890023634976 van 23 april 2020 bericht ik u dat de Wetenschappelijke Autoriteit CITES Nederland (WA), na onderzoek van de beschikbare gegevens, negatief adviseert over deze aanvraag, in overeenstemming met artikel 4.2.a van de Europese Verordening 338/97 en artikel 54 van de Europese Verordening 865/2006.

Uromastix ocellata (II/B) staat op de IUCN rode lijst aangemerkt als ‘Least concern’. De internationale handel in deze soort is beperkt en de soort heeft een relatief breed verspreidingsgebied. Er is echter geen informatie beschikbaar over de wijze waarop Soedan voorkomt dat schade aan wilde populaties ontstaat ten gevolge van de vangsten. Op navraag door de WA en de SRG bij de autoriteiten van Soedan is geen reactie ontvangen. Dientengevolge heeft de SRG een ‘negative opinion’ vastgesteld. De WA onderschrijft deze ‘opinion’.

De WA is van mening dat de invoer 300 levende exemplaren van de soort *Uromastix ocellata* (oorsprong W), afkomstig uit Soedan schadelijk kan zijn voor de instandhouding van de wilde populaties.

In geval u of derden dit advies onvoldoende inzichtelijk achten, is de WA gaarne bereid toelichting te geven, dan wel specifieke vragen schriftelijk te beantwoorden.

Met vriendelijke groet,

BRW

Den Haag, 1 april 2016

Positief advies over de invoer (nr. 4890016865586) van 100 levende exemplaren van de soort *Uromastix ocellata* (oorsprong W), afkomstig uit Soedan, doel T

Geachte heer BRW,

In antwoord op uw adviesvraag CITES-4890016865586 van 11 maart 2016 bericht ik u dat de Wetenschappelijke Autoriteit CITES Nederland (WA), na onderzoek van de beschikbare gegevens, positief adviseert over deze aanvraag, in overeenstemming met artikel 4.2.a van de Europese Verordening 338/97 en artikel 54 van de Europese Verordening 865/2006.

Uromastix ocellata (II/B) staat op de IUCN rode lijst aangemerkt als "Least concern". De internationale handel in deze soort is beperkt en is de afgelopen jaren verminderd. De soort heeft een wijd verspreidingsgebied en komt met hoge aantallen voor in het wild.

De WA is van mening dat de invoer 100 levende exemplaren van de soort *Uromastix ocellata* (oorsprong W), afkomstig uit Soedan niet schadelijk is voor de instandhouding van de wilde populaties.

In geval u of derden dit advies onvoldoende inzichtelijk achten, is de WA gaarne bereid toelichting te geven, dan wel specifieke vragen schriftelijk te beantwoorden.

Met vriendelijke groet,

BRW
