*: De norm voor melem, melam en melamine voor drinkwater is een gecombineerde norm.						
- Als cyanuurzuur aanwezig is in concentraties < 10 µg/L, mag de som van melamine, melem en melam niet hoger zijn dan 2 µM.						
- Als cyanuurzuur aanwezig is in concentraties ≥ 10 µg/L, mag de som van melamine, melem en melam niet hoger zijn dan 0,28 µM.
