

SITUATIE 1:2000  
OVERZICHT BLAD 03

VERKLARING :

- |  |  |  |  |  |  |
|--|--|--|--|--|--|
|  | Lichtmast                                      |  | Eindverloopband trottoirband 180/200x250mm, links  |  | Asfaltconstructie 01:  |
|  | Bestaande hoogte verhoging                     |  | Eindverloopband trottoirband 180/200x250mm, rechts |  | - 40mm AC11 surf DL-B  |
|  | Ten talud bestaand                             |  | Eindverloopband RWS 110/220x200mm, links           |  | - 50mm AC6 bind TL-B   |
|  | Kruin talud bestaand vervallen                 |  | Eindverloopband RWS 110/220x200mm, rechts          |  | - Asfaltwepening vastzetten met EAB op bestaande asfalt ondergrond |
|  | Kruin talud nieuw                              |  | Inritbanden 650x200mm                              |  | Asfaltconstructie 02:  |
|  | Aftrastering bestaand                          |  | Betonstraatstenen, keiformaat, grijs               |  | - 40mm AC11 surf DL-B  |
|  | Drainbuis PVC Ø80mm met pp 700mu omhulring     |  | Betontegels (d=5mm), grijs                         |  | - 50mm AC6 bind TL-B   |
|  | Grasbetontegels 400x600x100mm                  |  | Betontegels (d=45mm), rood                         |  | - Asfaltwepening vastzetten met EAB                                |
|  | Kunststof grasplaten 400x770x50mm              |  | Betontegels (d=80mm), grijs                        |  | - 80mm AC22 base DL-B  |
|  | Streetprint (a=0,30m)                          |  | Betontegels (d=80mm), rood                         |  | - 350mm menggranulaat 0/31,5                                       |
|  | Rode coating (a=3,20m)                         |  |  |  | - 400mm zand voor zandbed  |
|  | Constructie met waterdichtende laag (2m breed) |  |  |  | Asfaltconstructie 03:  |
|  | Opeluitband 120x150                            |  |  |  | - 40mm AC11 surf DL-B  |
|  | Opeluitband 100x200mm                          |  |  |  | - 50mm AC6 bind TL-B   |
|  | Trottoirband 130/150x250mm                     |  |  |  | - Asfaltwepening vastzetten met EAB                                |
|  | Trottoirband 180/200x200mm                     |  |  |  | - 80mm AC22 base DL-B  |
|  | RWS band 110/220x200mm                         |  |  |  | - 350mm menggranulaat 0/31,5                                       |
|  | RWS band 110/220x200mm                         |  |  |  | - 400mm zand voor zandbed  |
|  | RWS band 110/220x200mm                         |  |  |  | Asfaltconstructie 03:  |
|  | RWS band 110/220x200mm                         |  |  |  | - 40mm AC11 surf DL-B  |
|  | RWS band 110/220x200mm                         |  |  |  | - 50mm AC6 bind TL-B   |
|  | RWS band 110/220x200mm                         |  |  |  | - Asfaltwepening vastzetten met EAB                                |
|  | RWS band 110/220x200mm                         |  |  |  | - 80mm AC22 base DL-B  |
|  | RWS band 110/220x200mm                         |  |  |  | - 350mm menggranulaat 0/31,5                                       |
|  | RWS band 110/220x200mm                         |  |  |  | - 400mm zand voor zandbed  |
|  | RWS band 110/220x200mm                         |  |  |  | Asfaltconstructie 03:  |
|  | RWS band 110/220x200mm                         |  |  |  | - 40mm AC11 surf DL-B  |
|  | RWS band 110/220x200mm                         |  |  |  | - 50mm AC6 bind TL-B   |
|  | RWS band 110/220x200mm                         |  |  |  | - Asfaltwepening vastzetten met EAB                                |
|  | RWS band 110/220x200mm                         |  |  |  | - 80mm AC22 base DL-B  |
|  | RWS band 110/220x200mm                         |  |  |  | - 350mm menggranulaat 0/31,5                                       |
|  | RWS band 110/220x200mm                         |  |  |  | - 400mm zand voor zandbed  |
|  | RWS band 110/220x200mm                         |  |  |  | Asfaltconstructie 03:  |
|  | RWS band 110/220x200mm                         |  |  |  | - 40mm AC11 surf DL-B  |
|  | RWS band 110/220x200mm                         |  |  |  | - 50mm AC6 bind TL-B   |
|  | RWS band 110/220x200mm                         |  |  |  | - Asfaltwepening vastzetten met EAB                                |
|  | RWS band 110/220x200mm                         |  |  |  | - 80mm AC22 base DL-B  |
|  | RWS band 110/220x200mm                         |  |  |  | - 350mm menggranulaat 0/31,5                                       |
|  | RWS band 110/220x200mm                         |  |  |  | - 400mm zand voor zandbed  |
|  | RWS band 110/220x200mm                         |  |  |  | Asfaltconstructie 03:  |
|  | RWS band 110/220x200mm                         |  |  |  | - 40mm AC11 surf DL-B  |
|  | RWS band 110/220x200mm                         |  |  |  | - 50mm AC6 bind TL-B   |
|  | RWS band 110/220x200mm                         |  |  |  | - Asfaltwepening vastzetten met EAB                                |
|  | RWS band 110/220x200mm                         |  |  |  | - 80mm AC22 base DL-B  |
|  | RWS band 110/220x200mm                         |  |  |  | - 350mm menggranulaat 0/31,5                                       |
|  | RWS band 110/220x200mm                         |  |  |  | - 400mm zand voor zandbed  |
|  | RWS band 110/220x200mm                         |  |  |  | Asfaltconstructie 03:  |
|  | RWS band 110/220x200mm                         |  |  |  | - 40mm AC11 surf DL-B  |
|  | RWS band 110/220x200mm                         |  |  |  | - 50mm AC6 bind TL-B   |
|  | RWS band 110/220x200mm                         |  |  |  | - Asfaltwepening vastzetten met EAB                                |
|  | RWS band 110/220x200mm                         |  |  |  | - 80mm AC22 base DL-B  |
|  | RWS band 110/220x200mm                         |  |  |  | - 350mm menggranulaat 0/31,5                                       |
|  | RWS band 110/220x200mm                         |  |  |  | - 400mm zand voor zandbed  |
|  | RWS band 110/220x200mm                         |  |  |  | Asfaltconstructie 03:  |
