5.1.2e

5.1.5

We understood from them that the project could be extended by including Parana river coming from Uruguay. Can you confirm that ?

5.1.2a

5.1.2a

3. Would be interested to know how Jan de Nul has been financed during its concession over the past years. Would you happen to know which commercial and/or development banks are presently involved?

## Will try to find out.

4. I assume Jan de Nul will again participate to the tender. Would you know that?

5.1.2a

5. Any other news on the tender and the time lines?

5.1.2a

6. Note that this week we will speak to 5.1.5 and this might come up aswell.

Perfect, if there is something interesting please let us know. We are also in touch with them,

5.1.5

(including ministry of transport). As I am not involved with consular affairs involving Dutch citizens I try to keep my work as normal as possible.

Thanks for keeping us informed and wish you all the best. Stay healthy and be careful.

Best, 5.1.2e

## Waterway Parana

Subject: The concession for the dredging of the Parana river on Argentinian territory is finalizing in 2021. It covers 820 km downstream from Santa Fe to the ocean. In February TOR were launched to select a consulting company that will design the future tender for the new concession. Government expects the tender to be ready by the end of 2019. Experts say that depending of the extension of the concession it might be a contract worth some 2-5 billion USD. More than half of Argentinian exports are exported through this waterway.

|                                                                                                                 |
| Potential: For future references there is interest in Argentina to enlarge the waterway up to Confluencia, even |

Potential: For future references there is interest in Argentina to enlarge the waterway up to Confluencia, even Concepción in Paraguay. The whole Paraguay-Parana waterway involves several countries: Brazil, Paraguay, Bolivia, Argentina and Uruguay (3442 km from Puerto Cáceres in Brazil to Nueva Palmira in Uruguay). Future Potential is big, but it is difficult for the involved countries to work on a joint project. In Paraguay in 2015 a master plan was awarded to the U.S. Army Corps of Engineers 5.1.2a Initially that contract was blocked by the Paraguayan Congress, 5.1.2a Basically you could move agricultural products from southern Brazil as the sea ports (Santos for instance) are too busy, mining and agricultural products from Bolivia, and products from Paraguay and the north of Argentina.

Subject: Request of meeting regarding Hidrovia Parana-Paraguay

Received: Mon 5/6/2019 3:23:44 PM

Dear 5.1.2e and 5.1.2e

Some developments have been taking place in the last weeks regarding the tender process of the Hidrovia Parana-Paraguay and I believe it would be good to catch up on that.

The last meeting I have had with  $\frac{5.1.2e}{}$  was the one we had a call with Rijkswaterstaat to discuss their possible assistance to the Argentinian government, on the 18th of February.

Would it be possible to book a 30 minute meeting with you 2 and 5.1.2e, to get to know (as far as it is possible) the involvement of the Dutch embassy on the tender process of this project and to think along if there is anything we should focus on together?

If positive, would you have availability on Monday 13th, somewhere 11am and 03pm?

Looking forward to your comments.

Regards,

5.1.2e
